

ACRUX* WOOL SYSTEMS

ABOUT US

Acrux Wool Systems garments are designed and made in Christchurch, New Zealand using 100% wool and merino fibres.

We use 3d knitting whole garment technology to produce fully seamless garments, resulting in:

A better fitting profile

More comfortable fabric

Longer lasting garments

We have a yarn processing system and knit structures that enhance the natural properties of our woollen apparel – better temperature regulation, breathability, moisture and odour management. This knit structure increases the loft of our fabrics and improves the feel of our garments.

All garments are machine washable.

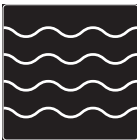

We are a stock service supplier, fulfilling orders of stock colours direct from our factory/warehouse at no minimum quantity, and indent colours at request. Please contact your designated uniform and apparel supplier for more information or to submit an order

We are making garments across the following categories:

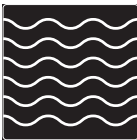

FIRST LAYER

Garments made with Superfine 18 Micron Merino

SECOND LAYER

Garments made from Fine and Superfine Merino – higher end lifestyle knitwear

OUTER LAYER

Garments made from mid-micron wool – heavier duty, traditional woollen knitwear. A blend between workwear and lifestyle garments.

MERINO SADDLE CREW

TRANS-SEASONAL KNITWEAR WITH TIMELESS STYLE

Midweight merino for everyday wear.

A true wardrobe staple, designed to be reached for without thinking twice. New Zealand merino is knitted into a timeless saddle crew that feels considered yet effortless, and remains relevant season after season. Crafted with no seams for a smooth, uninterrupted finish, the saddle shoulder detail brings a refined appearance through the shape. The result is a clean, streamlined silhouette with carefully finished hems and cuffs, built with the strength, durability, and softness to handle daily wear in ultimate comfort.

CREW NECK SUPERFINE MERINO TUNIC

TRANS-SEASONAL KNITWEAR WITH TIMELESS STYLE

Midweight layer to be worn alone or to complement a range of outfits.

With a high neckline and vents along the hips, this tunic style garment is made to drape off the body. Refined finishing with shoulder detailing and ribbed cuffs and hem. Designed to be worn as a mid-layer garment, yet with a superfine feel that transcends seasonality and allows for first layer use. Breathable, moisture wicking and thermo-regulating, you may find yourself sleeping in this tunic - or it may be your go-to après ski sweater. True versatility, limited only by imagination.

ACRUX* WOOL SYSTEMS

A MORE SUSTAINABLE CHOICE

Our wool is not just a product; it's a promise to the planet. The farmers who grow our wool restore soil health, contribute to carbon sequestration, and support thriving ecosystems. By practising seamless manufacturing locally, we reduce our carbon footprint, eliminate textile waste, enhance product comfort and durability and champion sustainable fashion.

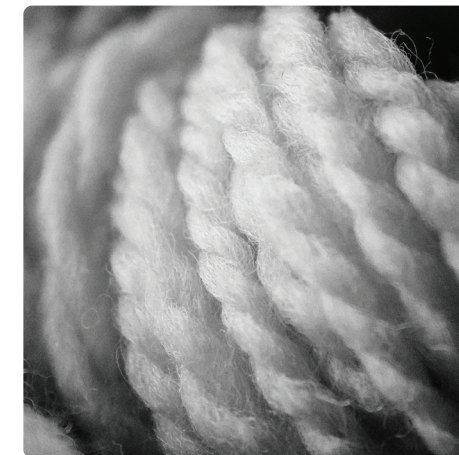

A NEW STANDARD IN WOOL PROCESSING

Drawing on over 30 years of expertise in woollen knitwear, we utilise cutting-edge, technically advanced processes in our garment production to create superior garments that are exceptionally durable, softer, lighter, more comfortable, less itchy, and resistant to pilling. All our garments are machine washable, easy care and quick to dry.

SELECTED BY WOOL EXPERTS

Our wool is grown specifically for our garments, carefully selected from the best sheep farms in New Zealand by world leading experts in wool. This attention to detail in raw materials ensures our specific quality standards are always met.

BESPOKE WOOL PROCESSING

Our wool is processed to ensure only the best fibres from the wool clip are used in our garments, reducing potential breakage points and fibre ends to ensure our yarns are industry leading in strength, durability and comfort. Our garments are softer, more durable and easier to wear.

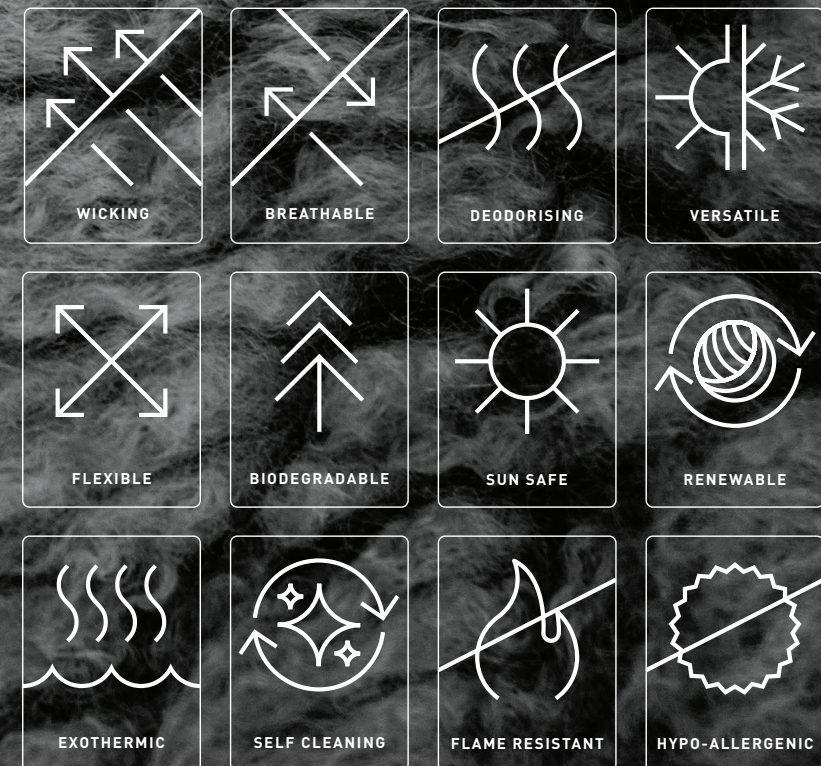

FINAL TOUCHES

We use our own proprietary enhancements, developed from over 30 years experience in the industry, to further reduce pilling concerns, improve comfort and wearability, and ensure our yarns are protected. All Acrux Wool Systems garments are machine washable, easy care and made to last.

ATTRIBUTES

Our premium wool is a super material, offering a range of exceptional attributes that enhance comfort, durability, and sustainability to deliver superior performance and protection in any environment

WOOL SUPPLIED BY WOOLS OF NEW ZEALAND

WOOLS OF NEW ZEALAND IS 100% OWNED BY THE FARMING
FAMILIES WHO GROW OUR WOOL. COLLECTIVELY, WE WORK
TOGETHER TO STRENGTHEN EACH OTHER'S' BUSINESSES,
AND THE INDUSTRY AS A WHOLE.
